

# HARIOM TAVAR

Cybersecurity Intern Candidate | Software Developer

+91-9753564070 | hariomtavar7@gmail.com | [GitHub](#) | [LinkedIn](#) | Indore, Madhya Pradesh

## PROFESSIONAL SUMMARY

B.Tech Computer Science student (8.62 CGPA) with a genuine, self-driven interest in cybersecurity — completed a Network Security & Ethical Hacking certification and have hands-on exposure to tools such as Wireshark and Kali Linux outside coursework. Strong CS fundamentals across networking, databases, and backend systems provide a practical foundation for understanding vulnerabilities and secure design. Proven problem-solving ability under pressure, having placed 4th of 600+ participants and Top 10 globally among 7,500+ participants at AI hackathons. Comfortable working both independently and in teams, and currently building projects that involve authentication, role-based access control, and REST API integration — the areas where application security most often matters in practice.

## RELEVANT SKILLS

**Security Fundamentals:** Network Security, Ethical Hacking Concepts, Vulnerability Awareness, Wireshark, Kali Linux

**CS Foundations:** Computer Networks, Operating Systems, Database Security Basics (MongoDB, MySQL), REST API Security Awareness

**Programming Languages:** Python, Java, JavaScript, C, C++

**Tools:** Git, GitHub, Postman, VS Code, Docker

**Soft Skills:** Problem-Solving, Team Collaboration, Independent & Remote Work, Communication

## PROJECTS

**EduTrack — Full-Stack Classroom Management System** | *React.js, Node.js, Express.js, MongoDB, REST API* [\[GitHub\]](#)

- Designed and implemented role-based access control for faculty and admin logins, restricting data access by user role.
- Built and tested REST API endpoints (Postman) handling attendance data, with attention to input validation and reliable data flow.

**Voynar — AI-Powered Learning Platform** | *React.js, Spring Boot, MongoDB, OpenAI API* [\[GitHub\]](#)

- Built a REST API architecture (Spring Boot) integrated with a MongoDB database, deployed on Netlify and Railway.

**MedLink — Smart Healthcare Resource Network** | *React.js, Node.js, MongoDB* [\[GitHub\]](#)

- Built and deployed a live, database-integrated web platform, handling real-time data connections between patients and hospitals.

## ACHIEVEMENTS & COMPETITIONS

- 4th Rank out of 600+ participants — AI WebForge Challenge (built & deployed a working web application in 24 hours)
- Top 10 globally — Elite Hack 1.0 (7,500+ participants, 900+ teams worldwide) as Team 'The Binary Brains'

## CERTIFICATIONS

- Network Security: Cybersecurity & Ethical Hacking — Udemy
- AWS Cloud Practitioner Essentials — Amazon Web Services (AWS)
- AWS Well-Architected Framework Accreditation — Amazon Web Services (AWS)
- IBM Enterprise Design Thinking — IBM
- Generative AI Models & Advanced Prompt Engineering — Microsoft
- Advanced Software Engineering Virtual Experience — JP Morgan Chase & Co. (Forage)

## EDUCATION

**B.Tech — Computer Science & Engineering**

2024 – 2028

Shri Vaishnav Vidyapeeth Vishwavidyalaya, Indore

CGPA: 8.62 / 10.0
